	Air Conditioner	

*Propane is prohibited in hazardous locations such as basements or pits or anywhere "heavier-than-air" gas can unsafely collect.
 *Propane tanks over 125 gallons require a minimum setback of 10 ft. from property line and buildings, and a site plan must be submitted with the application showing the setbacks. If propane tank is over 500 gallons, a site plan is required to accompany this application, and a separate Fire Code approval is also required.

Installation manual must be on site at time of inspection or a re-inspection fee will be charged.

By signing this application form, the owner/agent attests that the information provided herein, and in any attachments, is true and correct to the best of his, her or its knowledge. Any material falsehood or any omission of a material fact made by the owner/agent with respect to this application packet may result in making any issued permit null and void.

I further agree to that all activities I intend to undertake or complete associated with this permit will be performed in compliance with all applicable federal, state and county laws and regulations and I agree to provide access and right of entry to Jefferson County and its employees, representatives or agents for the sole purpose of application review and any required later inspections. Applicant may request notice of the County's intent to enter upon the property for visits related to this application and subsequent permit issuance.
